

MRS. GOULD'S GRATITUDE

HOW SHE WAS RESTORED TO HEALTH.

Condition Before and After the Birth of Her Child.

From every city, town and hamlet on this vast continent, come letters from suffering women: from those whose physicians have been unable to assist them, or from that numberless class whose confidence in Mrs. Pinkham's advice and the curative properties of her Vegetable Compound is unbounded.

Every letter received from women is recorded, and hundreds of volumes of cases treated aid in furnishing practical information for the women of today.

No letters are published without the request of the writer. The strictest confidence is observed. The following letter represents thousands:—

"I always enjoyed good health until six months before the birth of my babe. Then I was very weak; my back ached all the time. My physicians said I would be all right after the birth of the child, but I was not, although at that time I had the best of care. The pains in my back were almost unbearable. I had leucorrhoea in its worst form; menstruations were painful.

"Any work or care would entirely unnerve me. When my babe was 11 months old, friends persuaded me to take Lydia E. Pinkham's Vegetable Compound. Before I had taken one bottle I felt the effects. My back did not ache so badly, and I felt stronger. After taking four bottles I felt well. My ambition returned, menstruations were painless, leucorrhoea entirely cured, and I could take care of my babe and do my housework. I shall always recommend your Vegetable Compound for all women, especially for young mothers."—Mrs. H. L. Gould, Oregon, Wis.

If Mrs. Gould had been well before the birth of her child, subsequent suffering would have been avoided. Lydia E. Pinkham's Vegetable Compound should always be taken before and after birth, in order that the system may withstand the shock.

COUGHS and COLDS.

ELY'S PINEOLA BALSAM is a sure remedy for coughs, colds, sore throat and for asthma. It soothes the inflamed membrane, relieves the cough, and renders expectoration easy.

Consumptives will invariably derive benefit from its use. Many who suppose their cases to be consumption are only suffering from a chronic cold, which, if not cured, will lead to consumption. ELY'S PINEOLA BALSAM is a sure remedy for coughs, colds, sore throat and for asthma. It soothes the inflamed membrane, relieves the cough, and renders expectoration easy.

For each case use ELY'S PINEOLA BALSAM, 25 cents. Both remedies are pleasant to use. Cream Balm, 25 cents per bottle. Pineola Balsam, 25 cents. Sold by druggists. ELY BROTHERS, 36 Warren Street, New York.

CARTER'S LITTLE LIVER PILLS.

Sick headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the stomach, etc. While the most remarkable success has been shown in curing

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

THE VERMONT NEWS.

\$90000 Damage by the Freshet at Enosburg.

The ice carried down the Missisquoi river by the high water last Wednesday destroyed the bulkhead of the canal leading to the mills at Enosburg Falls. A boom was hastily improvised and swung across the end of the canal as a protection, but the ice soon accumulated in such an amount as to break the barrier and the boom, with tons of ice, was carried into the canal. John Lawrence's saw mill was struck by the heavy mass and carried away, and A. H. Manley's sash and door shop was undermined so that it fell into the stream. The flume of the electric light station was also washed out, so that the village will be without lights for some time. Kemp's knitting mill also fell into the stream during the night. The total damage caused in the place is estimated at between \$8000 and \$9000. The melting snow raised the waters of the Winooki river almost to the high water mark and interfered with the running of the mills at Winooki. Two bents of the trestle in the railroad bridge near Waterbury were washed out, and a special watch was kept on Slip hill for fear of a landslide. The large iron bridge at Glen Sutton, P. Q., just beyond Richford, was carried away and the Masonville water race to a level with the station platform, so that trains could not pass and the Boston mails were carried around by way of Sherbrooke. Roads in Richford and adjoining towns were submerged so that travel was impossible and the mails had to be transported in boats. The large iron bridge in Richford and several of the mills and shops were in great danger for some time. Roads in Stowe were badly washed, and in Brandon the railroad tracks were covered with water in some places so that it was thought necessary to keep a patrol on the tracks to avoid danger from a possible washout.

Bigney Charged.

Clinton L. Sherwood was arrested at Rutland Sunday on a warrant by virtue of an information filed by J. C. Jones in the county court. The complainant was Nellie E. Sherwood. The charge against Sherwood is bigamy. Clinton L. Sherwood was married to Mrs. Matie E. Barney at West Rutland on the 8th. Sherwood and his wife returned Thursday to Rutland from their wedding trip. On Friday a woman calling herself Mrs. Clinton L. Sherwood of Newport, N. H., arrived in Rutland and went to some friends. It appears from her story that she married Sherwood August 25, 1891, at Montpelier. She afterward learned that his real name was not Sherwood, but William H. Strickland, who lived for many years at Vergennes. The police at Vergennes say that Strickland in consequence of some difficulty, changed his name to Sherwood. After marrying in 1891 he lived until quite recently at Newport with his wife, whose maiden name was Nellie E. Barney. Sherwood was released Monday, but in the sum of \$1500 being furnished by the mother of his Rutland wife. Sherwood claims that he was not legally married to the Newport woman, as she had never received a divorce from her first husband.

Daughters of Vermont.

The annual meeting of the Daughters of Vermont was held at the Vendome, Boston, last week Friday. Mrs. Oliver Crocker Stevens presided. Several amendments to the constitution were enacted. One of them enables any woman born in Vermont or having a residence there of three years, to become a member of the society. The following officers were elected: President, Miss Helen M. Winslow; 1st vice president, Mrs. Albert E. Pillsbury; 2d vice president, Mrs. Hiram Green; corresponding secretary, Mrs. Henry M. Parker; recording secretary, Mrs. William A. Barton; treasurer, Mrs. Charles H. Greenleaf; executive committee, Mrs. Oliver Crocker Stevens, Mrs. Charles B. Bigelow, Mrs. George E. Eaton. An informal reception to the newly elected officers closed the meeting.

Shot Accidentally.

Many persons have been shooting pickers of late on Hinesburg and Shelburne ponds. Last spring two pickers weighing 17 and 18 pounds were shot at Hinesburg. The sport is quite dangerous, and one person was hit in the head by a stray bullet, but not seriously injured. Frank Plume of Williston was probably fatally injured at Shelburne pond. He was taking a gun from a carriage when the weapon was discharged, and the buckshot tore an opening two inches wide and three inches long in his skull. He was taken to the hospital at Burlington.

Vermonters in Springfield, Mass.

The third annual banquet of the Sons and Daughters of Vermont in Springfield, Mass., was held Monday evening at the Cooley House, between 300 and 400 being present. Frank E. Ladd, the president of the society, was toastmaster, and made the address of welcome. The other toasts were: "Vermont as a birthplace," Gilbert A. Davis of Windsor, Vt.; "Our Boston neighbors," Capt. S. E. Howard of Newton, Mass.; "Reminiscences," Col. John L. Rice; "Our present home," O. D. Adams. Rev. William Hart Dexter also spoke.

Lake Champlain Open.

The ice cleared from Lake Champlain Sunday and Monday, three days earlier than last year, and navigation was resumed Monday. The lake was higher than for 20 years and overflowed a number of docks. The lighthouses at Burlington and Newburyport on Mount Mansfield were blown down by a gale in January, have been replaced by the lighthouse board, and were doing service Sunday night for the first time this season. Rivers emptying into the Champlain reached their highest point for years on Friday.

Granite Cutting Machine.

The diamond granite cutting machine which has been tested in the sheds of C. H. Moore & Co. at Montpelier, is expected to revolutionize the granite industry, as it cuts blocks of the hardest Barre granite as perfectly and smoothly as if they were wood. The manufacturer of the machine is H. C. Potter of New York, a former resident of Middlebury. In appearance the machine is like the ordinary circular saw used in getting out lumber. It makes 750 revolutions a minute, and is run by a 30 horse power boiler and engine.

Hon. Wm. H. Dubois of Randolph, who is widely known throughout the state on account of his work as state treasurer and inspector of finance, has been critically ill at his home with bronchial pneumonia.

A Blideford, Me., despatch says: "Rev. J. D. Waldron of Enosburg Falls (Vt.), formerly of West Buxton, against whom a verdict of \$300 was rendered at the trial of the Buxton anonymous letter case in the supreme court in January, came here today and gave himself up to the officers who held a warrant against him. He secured his release from custody."

SENATOR

A. W. WOODWORTH,

Of Enosburg Falls, Vt., relates how

Scrofula Sores and Dyspepsia

Of 30 Years Standing Were Cured.

The Hon. Arthur W. Woodworth of Enosburg Falls, Vt., relates an experience with Dr. David Kennedy's Favorite Remedy, which he has known to the world for the great benefit of suffering humanity. "I have used," said Mr. Woodworth.

DR. DAVID KENNEDY'S

FAVORITE REMEDY

In my family with excellent results. A member of my family was afflicted with scrofula sores and chronic dyspepsia for upwards of 30 years. They had refused to yield to doctor's prescriptions or any medicine used, and they were many, until she began to use Dr. David Kennedy's Favorite Remedy, which I procured to state cured me and I trust our experience will be the means of helping others.

Favorite Remedy is the superior of all blood and nerve medicines. It cures rheumatism, neuralgia and nervous prostration. It is a specific for scrofula, erysipelas, dyspepsia, and for the troubles peculiar to the female system. All drug stores, \$1 a bottle.

A Large Fire at Newport.

The Hibbard block and the Field block which contained the opera house at Newport were burned Tuesday morning. The surrounding buildings were on fire several times, but the efforts of the firemen prevented the flames to the two blocks. The building where the fire originated was owned by C. J. Hibbard and a part occupied by him as a hotel and shoe manufactory and store. J. L. Lambert's bakery was also on the first floor, with the Grand Army hall above. The insurance on the building and stock of Hibbard is \$7000 and of Lambert \$500. The Grand Army lost valuable fixtures and paintings. The block owned by the Field estate was occupied by the post-office, recently fitted at a great expense. Miss Normande's millinery store was on the first floor and the armory of the Newport rifles and C. H. Green's undertaking rooms were on the second floor, with a hall above. A large part of the goods were removed and everything belonging to the post-office was saved, with most of the fittings. Insurance on building only \$2000. The military company lost guns and uniforms, which, for the most part, belonged to the state, though some individual losses were quite heavy. Mr. Brady had little, if any, insurance on the post-office and lost 1000 bushels of barley. His loss is quite heavy. Mr. Green was insured for \$800. In many cases the losses are fully covered, while in others there was no insurance.

To Furnish 1500 Horse Power.

G. E. Moody, representing a syndicate of capitalists in Waterbury, who recently purchased the rights of the Bolton Falls water power, reports that negotiations have been entered into with a large manufacturing firm in Manchester, N. H., which contemplates moving its entire plant to Waterbury. The Bolton falls are the largest and most easily available in Vermont, their horse power being computed at 1500 throughout the year. It is proposed to operate the plant by electricity, which would enable the village to acquire an electric light and power system which is much needed.

Charles Holt's barn and outbuildings at Plainfield were struck by lightning and burned Friday, causing a loss of \$9000.

Col. Harry Parker has sold the Bradford Opinion to a syndicate of local business men. Col. Parker retains an interest in the paper and will continue to act as its manager.

The dwelling house and barn of Edwin Taylor of Barton were burned Thursday of last week by fire. The loss is estimated at \$2500. The loss is \$2000 with insurance of \$1300.

Charles Craig, recently arrested at Lyndonville for forgery, has been released on \$500 bail, his father becoming surety. Craig is seriously ill with Bright's disease, and is not expected to recover.

Carlo Malanni's carriage was smashed by a train at the Granite street crossing in Barre one day last week. Malanni was thrown under two cars, a gas tank inches long was cut in his thigh, three ribs were broken and he sustained other injuries.

The Barre members of the Granite State Provident association are making the move to secure a permanent injunction, so that the \$8000 now on deposit in one of the local banks can be kept in the city and not allowed to be taken into the general fund.

Gov. Woodbury has appointed commissioners to investigate the normal school of the state, in accordance with the provisions of joint resolution No. 346 of the legislature of 1894: Fred Arnold of Bethel, Frank Kenfield of Morrisville, Ashbel A. Dean of Bristol, H. S. Brigham of Bennington, and John P. Rich of Swanton.

Leon Batchelder, 20, cut his throat with a razor Friday night at the home of his employer, H. M. Gaylord, in Randolph. He is a son of Eli Batchelder of Brookfield. The young man was found in an unconscious condition from the loss of blood, but the chances are that he will recover. He had been crossed in love.

Dr. F. A. Rich of Burlington went to Shoreham last week to superintend the killing of 38 cows which were affected with tuberculosis. The cows were a part of the herd of 73 belonging to the Cream Hill Stock farm. The disease is thought to be transmitted to the imported stock which was brought to the farm several years ago.

W. H. Kimney, one of the leading clothiers of Randolph, is financially embarrassed. His liabilities amount to \$8000 and his creditors are mostly Boston firms. A meeting of the principal creditors was held in Boston last week and it was decided to transfer the stock to Town Clerk J. E. Eldridge, who was appointed receiver by mutual consent.

Trained Nurses

Everywhere endorse and testify to the merits of that great antiseptic, medicated preparation,

Comfort Powder

Used in the sick-room, it prevents and cures Bed Sores, relieves all itching and irritation of the skin, and is in this way a valuable adjunct in giving

Relief to the Sick.

The Comfort Powder Co. 25c and 50c a box. All Druggists sell it.

Allen Jewett, an old soldier employed by J. A. & L. J. Dyer of Durkeeville in Waterbury, was fatally injured one day last week by a log rolling over him, throwing him into a pond. He died the following day. He was about 55 years old, and leaves a wife and one son.

The body of James Newman was found in the Missisquoi river near Stevens Mill bridge at Westfield Thursday. While attempting to cross Wednesday evening, he fell into the river. Several tried to help him, but he was drowned before he could be reached. Newman was a bright, industrious young man about 30 years old whose home was in Canada.

Nellie Clark was held at Bennington Friday in the sum of \$500, charged with carrying a revolver at Thompson Niles and Orville Noyes of Shaftsbury. She claims that she refused to leave her house. She has recently served a term in jail for riding horse back through Shaftsbury and White Creek in a perfectly nude condition, and has gained notoriety in other ways. She says she is a dressmaker in Boston.

Stark lodge of Odd Fellows at Bennington entertained about 200 Odd Fellows from out of town Saturday evening. Fifty members of the Stark lodge of New York came down and under the direction of L. V. Green, grand patriarch of the state, their team, composed of 40, worked the second degree. Delegations were present from Manchester, Hoosick Falls, North Adams and Troy.

St. Johnsbury Choral Union will hold a festival May 19 to 22, with H. G. Blaisdell of Concord, N. H., as director. Blaisdell's orchestra of 15 pieces, Mrs. Martha Dana Shepard of Boston, and Mr. F. Frank Harris of St. Johnsbury as pianists. These soloists have been engaged: Miss Frances Miller of New York, soprano; Mr. E. C. Towne of New York, tenor; Mr. E. H. McCloskey of Boston, tenor, and Dr. Carl E. Duff of New York, bass.

MASSACHUSETTS NOTES.

Five Children Suffocated at Turners Falls.

Five children were burned and suffocated to death in a tenement house on L street at Turners Falls Friday. The names of the dead are: Aime Dubois, four years, Lena Dubois, seven years, both children of Charles Dubois; Rose Robinson, his stepdaughter, a girl of 13; Josephine Courtmaine, generally known as Nellie, a girl of 12, and Edward Courtmaine, ten years, the children of Charles Courtmaine, a baker. All were of French nationality.

The fire broke out in the basement of a market occupied by Roberts & Son, in a four-story brick tenement house owned by the Roberts. It was first discovered by Henry Roberts in his tenement above the market. Instead of awakening all the people in the house, when he saw the smoke creeping slowly up through the floor, he ran into the street shouting fire, and then to the engine-house, where he gave a general alarm by ringing the bell.

His brother, Frank Roberts, also ran to the engine-house and joined in the alarm. The thoughts of the Roberts boys were on saving property and not on saving life, but in the tenements above were 20 people, several of them helpless little ones. The fire in a few minutes sent up a dense volume of smoke that rendered life impossible in it. The children in Courtmaine's tenement had been the only person who made any effort to save the children. Courtmaine had a very narrow escape, but succeeded in saving two children. All the others were bent on saving their own property. The funeral of all five victims was held Sunday morning at St. Anne's French-Catholic church, over 1000 people being present.

The Baker Insolvency Case.

A petition was filed in the insolvency court at Greenfield Friday, by Charles B. Mayhew of Champlain, asking that Preston Baker, the eccentric miller who formerly lived in Champlain, should be declared insolvent. A hearing will be given the matter May 1. Mr. Mayhew married a sister of Mr. Baker. He sets forth that a note of \$2500 is due him from Baker. He further alleges that undue preference has been shown W. N. Potter & Sons against Baker was about \$18,000. The inventory of stock on hand and fixtures of Baker is valued at \$4500, and for this amount Potter & Sons gave Baker credit, renouncing their claim to some \$13,000. Mr. Mayhew claims, in substance, that all the creditors should come in on an equal basis.

VICINITY CLEANINGS.

Electric Road Brings a Boom.

The electric road from Woodford to Glensbury is bringing the latter place into prominence as a summer resort. A motor car and three trailers, vestibuled, making six cars in all, have been ordered. Contracts have been let for a theatre near the Casino, a famous road resort, to seat 500 people. At Glensbury, a club house, 80 by 200 feet, two stories, with dance hall, billiard rooms, bowling alley, etc., is about completed, and work on the hotel is now under way. At the Casino, the grove is to be wired and lighted by electricity.

A Novel Show.

A big crowd of people at Tucson, Ariz., had an unusual privilege the other day of witnessing a railroad smash-up of considerable proportions that had been prearranged, and they had sufficient notification of the coming spectacle to be able to secure choice positions for seeing the smash. A section crew was at work at Vail's station, some thirty miles east of Tucson, and a long gravel train stood on the track. A coupling link broke, and thirteen of the loaded gravel cars started on a wild slide down the grade toward Tucson. News of the accident was telegraphed to Tucson, and preparations were made for receiving the runaway. The switches were set to run the cars on the side track, and then to derail them. The news of the coming smash was spread about, and in the half hour before it came a big crowd had gathered. The cars came into Tucson at a speed estimated at from fifty-eight to seventy miles an hour, struck the side track and then the obstructions, and then the air was filled with gravel, car wheels, and splinters. All the cars were badly wrecked, and the station yard was badly torn up.

Judge Coffey, who used to be locally famous in San Francisco, had fiery red hair. Once upon a time ex-Judge Bowers was arguing a law point before Judge Coffey. "I see around me," he remarked, "many gray-haired lawyers, whose opinions I have no doubt agree with those I have just expressed to your honor—men whose snowy locks testify to—" At this juncture Judge Coffey leaned over his desk and in his mildest tones interrupted: "I have no doubt you are right, judge, and your deference to gray-haired men is very appropriate, but I'd like to remind you there's a red-headed man whose opinion is of most importance in this case."

AUCTION.

I WILL SELL, at public auction, in Brookline, Vt., Thursday, April 30, at 10 o'clock, A. M.

MY FARM situated near the middle of the town, a few rods from E. L. Pierce's steam mill, church and blacksmith shop near by, school house only one-half mile away. Farm contains 14 acres, divided into mowing, woodland and pasture, and is an easy farm to carry on. The mowing land is mostly flat and a machine can be used on nearly all of it. Good corn, grain and grass land. Two story house and barn in fair condition, good running, 100 lbs. of coal, 100 lbs. of hay, 100 lbs. of straw, 100 lbs. of wood, 100 lbs. of lumber, 100 lbs. of shingles, 100 lbs. of nails, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100 lbs. of brass, 100 lbs. of zinc, 100 lbs. of lead, 100 lbs. of silver, 100 lbs. of gold, 100 lbs. of platinum, 100 lbs. of palladium, 100 lbs. of rhodium, 100 lbs. of iridium, 100 lbs. of osmium, 100 lbs. of tellurium, 100 lbs. of selenium, 100 lbs. of arsenic, 100 lbs. of antimony, 100 lbs. of bismuth, 100 lbs. of mercury, 100 lbs. of cadmium, 100 lbs. of zinc, 100 lbs. of iron, 100 lbs. of steel, 100 lbs. of tin, 100 lbs. of copper, 100
